

Tools for People Performance

Practical solutions to use emotional intelligence to increase business value

Equip managers to be people-leaders with a simple, serious approach to turn emotional intelligence into tangible value. “Finally, we’re not just TALKING about emotional intelligence - now I have something I can actually use.”

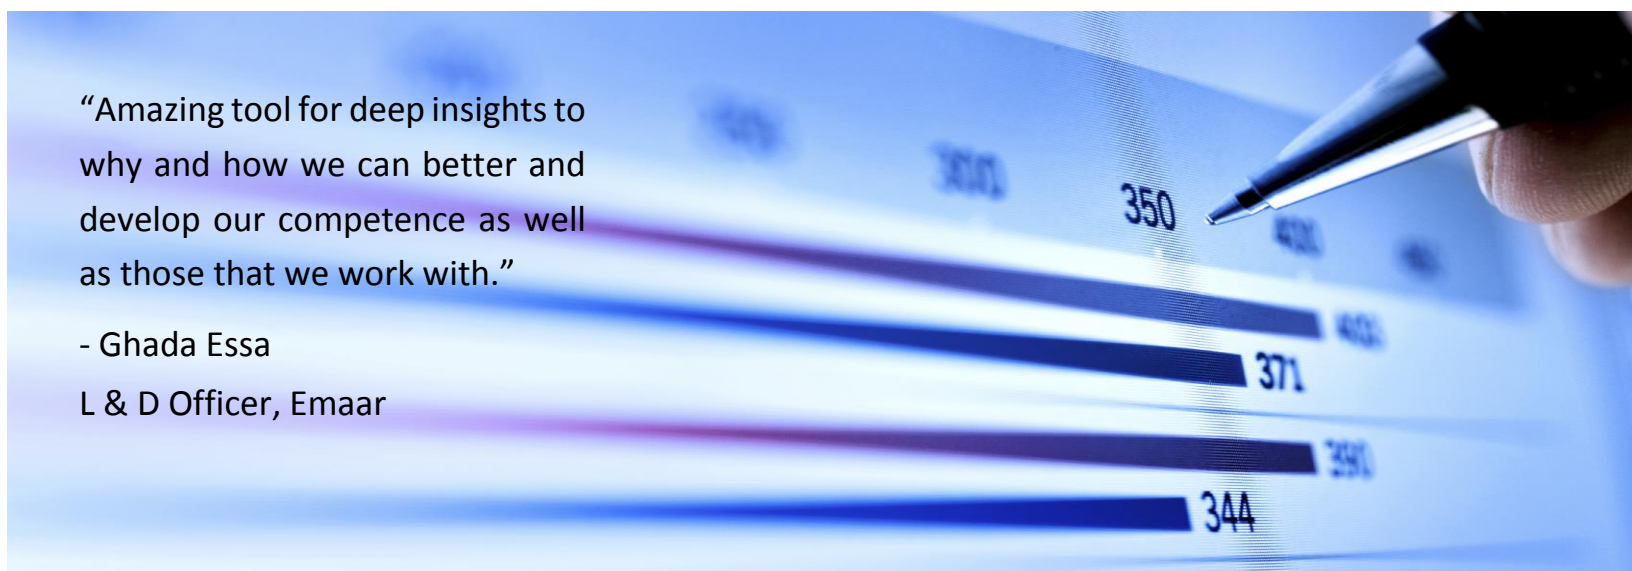

The science of people-performance, delivered.

“Amazing tool for deep insights to why and how we can better and develop our competence as well as those that we work with.”

- Ghada Essa

L & D Officer, Emaar

The Benefits of Attending:

In volatile markets and rapid change, what really creates performance? New insights from neuroscience and organizational research reveal key drivers that make the difference.

In an action-packed training, managers and people responsible for increasing managerial performance will access key insights and powerful tools to work better with people. “Emotional intelligence” isn’t just a buzzword for people-skills, it’s a specific, learnable, measurable skillset to improve performance.

You will become an “EQ Profiler” and learn about...

- The new leadership imperative created by increasing volatility & complexity - and what makes real leaders stand out in today’s business context.
- The three EQ Profiles and the Dashboard (described below) that you will be able to use with your people.
- Your own BRAIN STYLE and BRAIN TALENTS and how to leverage these EQ insights to improve.
- How to use the Profiles to improve performance.
- Developing a practical implementation plan.

The PROFILES distill the power of an advanced assessment tool into one page for compelling, quick, meaningful insight into your brain:

Brain Brief Profile: How does your brain focus, decide, and drive?

Brain Talent Profile: What are your brain’s key strengths for creating the future?

Brain Discovery Profile: How are your style, strengths, and challenges creating results?

Dashboard: What is the EQ strengths, weaknesses, opportunities and threats for a group or team?

If you want to become a leader who is truly effective in working with and through people, you need a lot of insight into people and how they work. Emotional intelligence is the science that provides that insight.

“Very insightful learning and an absolutely great tool for coaching.”

- Kevin Herft, Management Trainer, Qatar Airways

Why?

Practical tools managers can use to develop effective performance conversations and unlock the “people-side” of performance

What?

Get equipped as an EQ Profiler including four different measurement tools to use emotional intelligence to improve performance

Who?
